National Code of Show Ring Ethics

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ring Ethics", fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers, and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards, and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animals health certificates from a licensed veterinarian upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of volatile drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer, and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animals entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state, and provincial statutes, regulations, and rules affect the animal's performance or appearance at the event. If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken,

with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise. At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian, or on the order of a vet.

5. Any surgical procedure of injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
7. Direct criticism or interference with the judge, fair, or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair, and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this code of show ring ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including fairs and expositions and any other special notices to members.
11. The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action, which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

Market Arrangement for Livestock

Animal Insurance: Due to stress factors and combat between strange animals at shows and in transit, it is recommended that owners get needed insurance. Water and feed is to be withheld from beef from 10pm Saturday night until after auction weigh-in 6am Sunday morning.

- **Beef**-All beef animals will be sold at auction on Sunday or removed from Fairgrounds. Cattle sale order will be decided by a lottery system.
 - All Beef must weigh at least 1100lbs to sell in the auction. A maximum pay weight of 1,600 pounds will be allowed in the auction. Example: An exhibitor can sell at auction a beef animal over 1,600 pounds but will only be paid on the 1,600 pound maximum weight. If a 1,678 pound steer is sold at auction, it will be paid at the price/pound at 1,600 pounds.
- **Sheep/Meat Goats** -All sheep / meat goats will be sold at auction or taken home. Sheep / meat goats sale order will be decided by a lottery system. **All Sheep must be 110lbs to sell at auction. All meat goats must be 60lbs to sell at auction.**
- **Swine**-All swine will either sell at auction, be entered in carcass or taken home. All carcass hogs will go to designated packer. Swine sale order will follow the yearly rotation.
 1. Animals condemned for drug residue are the responsibility of the show person and be required to reimburse buyer.
 2. A maximum pay weight of 300 pounds will be allowed in the auction. Example: An exhibitor can sell at auction a market hog over 300 pounds but will only be paid on the 300 pound maximum weight. If a 325 pound hog is sold at auction, it will be paid at the price/pound at 300 pounds.
 3. As decided by the Fair Board: Swine will be auctioned at a price per pound bid. Total pounds sold back to the packer will be divided into the check received from the packer to establish a “new” price per pound. Buyers will be compensated and checks dispersed to the buyers based on this formula. (All questions will be handled by the Fair Board in regards to the division of auction money.) With the exception of hogs going to lockers.
 4. Each exhibitor must designate at fair animal check-in which 2 swine will be sold in the live auction.
 5. No swine are allowed to leave the Fairgrounds without a swine superintendent present during the removal of said swine.

Auction Sale Procedure

- Each participant in the auction will get only 2 sales per species, per exhibitor. You can still exhibit both FFA and 4-H, but you will only be allowed to sell 2 animals of that species total. The other 2 market animals can be sent to an alternative buyer as you wish.

- It is suggested that sheep be led into the auction ring on a halter.
- The seller must announce “NO SALE” before animals leave the sale ring.
- Resale will be allowed for the first two sales in each species, and must be announced by the seller before the animals leave the sale ring. The animals will be resold at the end of the auction. If the first sale is completed, the second sale will not have the resale option.
- **Superintendents reserve the right to pull animals from the auction if sick or unfit for sale.**
- If an animal is misrepresented (sick) when sold in auction ring, the buyer can reject if veterinarian confirms poor health of the animal.

- The Fair Board, Floyd County Extension, and commodity groups are not responsible for tanked animals.

- All livestock sellers with the exception of outgoing seniors will be charged a 5% fee for a savings fund and administrative fees.
- All animals going through the auction and derby/carcass will not receive the additional premium money.
